We have to recognise that it will not be possible to reduce the risk of transmission to zero whilst there is any circulation of the virus within the community. Below is a summary of the measures we are taking at Dove Bank Primary School to operate as safely as we can.

Do not attend school if you or a member of your household are displaying coronavirus symptoms.

The 'CATCH IT, BIN IT, KILL IT' approach is used for coughing and sneezing and tissues will be disposed of in the lidded bins in each classroom.

We will wash our hands thoroughly, a minimum of 5 times during the school day.

Parents & carers will adhere to the drop off and collection times following the one way system set out on the playground.

We will create class bubbles of no more than 30 children. These bubbles **will not** mix with other class bubbles.

Everyone will have a set place in the classroom and everyone will face the front (except in Oak Class).

Children will wear PE kit to school on set PE days and bring a fleece to wear in the classroom if it's cold.

Children should bring a named lunchbox (if having packed lunch) and drinks bottle with them containing water every day.

No bags, rucksacks or additional items will be brought to school. All resources will be provided.

Everyone will follow the school's one way system at all times.

Adults and children will keep a safe distance apart where possible.
